

Project Features

Up to 335 turbines

500 megawatts

(Showing construction phase)

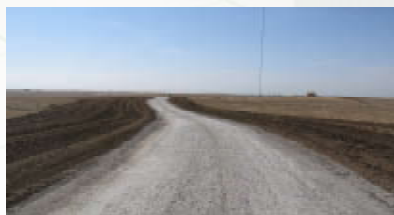

**Underground and/or overhead
34.5 kilovolt (kV) collection
system between turbines**

345kV or 500kV substation

**345kV or 500kV transmission
line to connect with an existing
transmission line**

Access roads

**Operation and maintenance
building and layout yard**
